Comments: Holland Lake has been one of my favorite places on Earth since I was five. Its quiet natural beauty has always been a refuge for myself and many others. This project would disrupt that, turning Holland into something to be enjoyed only by those (wealthy) tourists who can afford to stay at the new and "improved" facility. What about the people who grew up here? What about the ecological integrity of the lake and the surrounding forest? I don't believe that this project offers anything to Montanans or to the land itself, and it would sacrifice one of our state's treasures for cash.
