Comments: My family has been camping at Holland Lake since our kids were babies. It is a great location to get away and enjoy a kid friendly hike. We love the simplicity of the sites and the beauty and calm that comes from the area. Having another big business come in and take another piece of our public land and turn it into a high traffic spectacle removes Holland's lake greatest attributes. Please consider the economical damages this will have on this quiet little lake. Leave this land as the peaceful fun family place for all to enjoy And have the corporation go buy up private land so they can build as much as they want there.

Thank you,
