Comments: i am one person, i miss understood what was going to happen at Holland Lodge, i thought there was going to be improvements on the buildings already there. the more i have read the more i have learn that is not the plan. How very disappointed! I understand that these building need help, i feel that should happen, not tear them down, there is so much history here!! These building and the smallness of this Resort is what has made the Lodge! now you want to come in and destroy all that. That is a huge mistake! there would be such natived impact on all! the lake, the fish, the wildlife, the envoriment. Shame on all of the Forest Service for even thinking about doing this let alone doing it! This land belongs to Montana and the Public, PLEASE KEEP IT THAT WAY.
