Comments: I'm deeply saddened to learn of the potential improvements and expansion of the Holland Lake Lodge. The lodge and area associated with it is a Montana icon. It is where people get married, bring their families for camping and adventures at the lake and surrounding area. It is a place of beauty and serenity that we wouldn't want to lose. Absolutely the lodge could use some updates but not a complete renovation with the addition of more facilities. Another huge concern is the land and wildlife management in that very area. And, of course, there are the trail access to all the beautiful wild surrounding areas including access to the Bob Marshall Wilderness.

Thank you for extending the comment deadline.
