Comments: A perfect example of the rich getting richer at the expense of local Montanans. All of the most beautiful places in our state are in line to be exploited by wealthy investors.

Not only will Holland Lake see an impact but also every lake, stream, river, highway, and trailhead. I see the guests using the new resort as a base camp to invade all areas within a 100 miles. Lots of day trip options. Too much traffic on an already dangerous highway.
