Comments: I visited the newly created website for this project and Powdr states the following getting to know them :

Play Forever has formalized our strategy to increase accessibility to and stewardship of our natural spaces, prioritizing conservation and sustainability, and partnering with the community to help address local priorities I'd like to know where they were before drafting plans if they really "partner with the community to help address local priorities." It is clear they have not addressed local priorities, you have to ask first to find what those priorities are. They didn't partner with the community in any way, and it appears they still don't intend to. I'm not opposed to improvements or local job creation, but what has been proposed is so grossly exorbitant. Please don't take away what makes this place special. Please don't build something to invite disrespectful out-of-staters to overtake and trash. I want my kids and their kids to enjoy the tranquility of this place for years to come.
