Comments: I am against the expansion of the Holland Lake special use permit being requested by a private business on our public land. The lake and surrounding area has been a favorite outdoor location and vacation area for our extended family for decades. It is a stunningly beautiful area that is - affordable. The proposed changes and stated need to have enough income structure to be a viable healthy business (as stated by Christian Wohlfeil) suggests to all that Holland Lake will be a recreational location for....the wealthy.
