Comments: As a citizen of Montana, born and raised here, I am concerned with th proposal to sell Holland Lake Lodge and its surrounding properties to an out of state interest to create a large private resort. It is my understanding that the land the lodge is on belongs to the US Forrest Service. As public land it is open for anyone to use and enjoy. Public lands should remain just that.

My family made many trips to Holland Lake to camp and to backpack into Bob Marshall Wilderness Area. We have many fond memories and we would like to be able to enjoy the lake and area with our grand children.

The area around Holland Lake should remain as is for all people to enjoy. Not a money making enterprise for a company that has no interest in the welfare of the area or Montana residence's . I am against the sale and development by POWDR or other commercial developers.
