Comments: This project stinks of people not following the regulations...and making changes for the new project before a legal decision has been made.

Does Montana need another exclusive resort that most people cannot afford to go to? And lose access to a piece of public land.

POWDR wants to create another resort that exploits the natural land and restrict its availability from the majority of the public.

Is this the best project for this piece of historic, sensitive land that belongs to the public?

Were the 2 new water wells approved to be drilled?

It is my understanding that the Wohlfeil SUP must be terminated if POWDR takes control of Holland Lake Lodge, even if the current owner Christian Wohlfeil is a willing seller.
