Comments: I am extremely concerned about the proposed development of Holland Lake. I fear the development will negatively impact wildlife and disrupt the tranquility of the area. I think about the nesting Loons who call Holland Lake home and need a quiet environment to thrive. There are birds, bears, elk and a plethora of other species that also live in the area, and depend on it to survive, especially with it being a gateway to the Bob Marshall wilderness area.

Furthermore, the number of wild spaces like this are far and few between, especially in the U.S. Many families come year after year to enjoy the tranquility and natural scenery Holland Lake provides and it is imperative for us to be good stewards of the land, protecting these few remaining wild spaces for future generations. I strongly urge you to consider the long term implications of this development and stop this project from moving forward.
