Comments: Hello, I am writing to voice my concern regarding the Holland Lake Lodge buy out of from Powder. I am against this company bringing in motorized vehicles in the winter. I personally am disgusted at how out of state big corporation is coming in and taking over my home state. We the native people of Montana can not even live a decent life because the Rich out of stators make it that way. the impact on the wild life is noticeable. We the native Montana people are demanding a full impact study done.

concerned Montana native.
