Comments: This is the exact abomination that true Natives of this voubtry originally have had to perserveer. As a 3rd generation Montanian. And having multiple "Native American relatives from the Souix, Crow, Assiniboine andother tribes, I feel their anguish and hatred for more power and control over our private lands. Paws Up has already taken over the Blackfoot corridor,( 37000 acres and the Double Arrow Lodge) and this will just keep expanding and take more land from the people whom have lived here for perhaps decades to nearly centuries. Holland lake has always be a sacred place for me to visit, hike, camp, kayak, and enjoy. In the last few years it has been nearly important to get a site there with booming popularity as is. This multi-million + whatever corporation coming in and buying OUR "Forest Service Land", raping it, plundering it, and killing the integrity of the land and forcing the local natives pay to enjoy our natural paradise is ludicrous and outrageous. I will NEVER support this literal infestation. Choose Montana first. We have already lost so much land to our of staters it just not fair.
