Title:

Comments: I am opposed to this project at this point in time. An expansion of this magnitude is bound to cause far greater use of the area and an increase in the overall prices. Many people will not be able to afford a get away to Holland Lake. You will be pushing Montanans out of their own backyard. The character of Holland Lake will be changed forever. Along with that, there should be no categorical exclusion of this project. What about the lynx's habitat and other wildlife in the area?

Please do not approve this project at this point in time. Listen to the local experts who have a deep connection to this place and an understanding of the area.

We are Montanans who know what is best for this "last best place."
