Comments: I would like to post my objections to the proposed expansion of guest operations and facilities at Holland Lake for the following reasons.

- 1) the scale of development is out of character with both the Lake and the surrounding valleys
- 2) The expansion of use will put too much pressure on local wildlife, resources, and wilderness values of the valley.
- 3) the proceeds from this operation will all go out of state, so the valley will experience negative impacts and any positive economic benefits will all go to an out of state entity.

I do support improvements to the lodge as it has been neglected for some time , however the current proposal is unacceptable .
