Comments: Hello,

I'm in support of this project, or some level of development on the Holland Lake Lodge. I've stayed at the lodge, and enjoyed the beauty of that area, and most definitely support improving the lodge and surrounding infrastructure. Development is scary, especially to locals who have been there forever, but development/growth can be controlled and done in a way that doesn't tragically impact the area, or blemish the area people know and love.

Respectfully,

Matt
