Title:

Comments: Please do the right thing with Holland Lake and the surrounding area. Protect the rights of Montana citizens who want to preserve a way of life being done away with by corporations who will never have enough money. I grew up in Butte and Missoula. I spent summers at Holland Lake. Once that area is paved over you will never ever get it returned to its natural state. Future generations will never know the beauty of the area or the lodge. Stop the corporate madness. How much is enough?
