Comments: Please note this comment in OPPOSITION to the Holland Lake Lodge expansion. Doubling the size of the leased acreage and tripling the capacity of the lodge are not in keeping with the existing quiet use of the Holland Lake area, which is a refuge much valued by local users. I also have concerns that the corporate pressure would increase the footprint well beyond the lodge itself, with corporate "recreation" changing the nature of the area. Expected impacts on threatened and endangered species use of this vital wilderness corridor are also concerning.

Thank you for listening to the public input.
