Comments: I strongly object to the proposal to expand Holland Lake Lodge into an exclusive resort that nearly triples the capacity and extends into all seasons. The area is already a "soulful" place without catering to a private "adventure lifestyle" on public lands. It would allow the developers to make large private profits off of our public land at great expense to both natural and human communities. The proposal does not address off-site, cumulative, or long-term impacts.

The project does not benefit the general public nor does it protect public and natural resource values. The Forest Service is not required to renew the special use permit or to issue a new one. I urge you to reject it.
