Comments: As a native Montanan of 60 years, I am more than dismayed at the scope of the proposed expansion of the Holland Lake Lodge. The impact this would have on a small, quiet lake is unimaginable. The sewage expansion alone is disturbing, not to mention the impact on wildlife. The loons are struggling to make a comeback in an area that was once a safe haven for them. I will keep this short and to the point: This is too much for such a small lake.
