Title:

Comments: The proposed expansion of Holland Lake lodge is unacceptable. I have lived in Western Montana for 48 years. Holland Lake has been a treasured place for our family to visit and camp. Upper Holland Lake and the waterfall likewise. Upper Holland lake was the first place in Montana I backpacked.

The proposed expansion is absolutely incompatible with the values, esthetics, and character of the Swan Valley. The evaluation process is inadequate: we must have a full Environmental Impact Statement and review.

Why are our public lands being abused to increase the profits of a business "partnering" with a huge out of state corporation? How will the expansion harm the public campground near by?

No. NO. No.

Sincerely,

Mike and Aleta Kantor
