First name: Amy

Last name: Dickinson

Organization:

Title:

Comments: I have hiked in this area as a visitor for 20 years in both the summer and winter months. There is no public interest in developing the lodge as proposed. It will only harm the natural beauty of the lake and surrounding area, while promoting exclusivity to wealthy tourists. The general public will use the public land less and it will be altered forever to serve the pleasures of a few.

This should not be approved.
