Comments: I urge you to DENY the Holland Lake Lodge development. It is urgent that the USFS preserve the historic legacy and wilderness integrity of Holland Lake on behalf of all Americans. I urge the US Forest Service to:

- Deny this special use permit and send this project back to the drawing board;
 - Conduct an unbiased, comprehensive EIS and Section 106 historical review;
 - Insist the applicants pursue historic preservation alternatives, especially adaptive reuse of historic buildings;
- and
- Protect pristine Holland Lake and the wildlife of the valley as a living heritage that belongs to everyone.

Thank you.
