Comments: Montana is not for sale. This will squash the beautiful public recreation of Holland lake for the people who have been stewards of the land for generations; only to leave it for the tourist industry to creep further into our roots and alienate locals. I'm all for growth, this is not the place though. This project will strain resources in the surrounding area and bring in out of state money to profit off of taking advantage of the local community. Please reconsider this project for something more productive for Montana.
