Comments: I oppose the Holland Lake Lodge expansion specifically due to finding out after the meeting that the forest service misled the public by admitting they made a mistake by having the total acreage amount be more than stated. This paired with the lack of environment studies shows this process has been done wrong. If the forest service didn't know or was hiding the fact that the expansion would go from 10 acres to 19 acres they need to start from scratch and correct the misleading and wrong information they have provided to the public. I oppose the expansion.
