Comments: I have been going to this special place my whole life. Celebrated my 21st there and remember calling my folks from the pay phone in the alcove as you entered the bar. I met my life partner there at our good friends wedding. It is truly an amazing place and should be preserved. I am whole heartedly OPPOSED to this vegas-esqe development by out of state capital venture one percenters! This plan should be scrapped at the very least! Disgusting!
