Title:

Comments: Dear Employees,

How dare you think you have the true God given Authority to steal rights to our united land. This is not something you own to claim you may make a profit from. You have no authority to act in any permanent way on our land surrounding Holland lake. You are a subject and not the Master. Repent of your wicked desire or face the One who designed this lake and wants it belonging to His Children for the safe clean keeping of it. Stop thinking your in control or you'll soon find out 'We The People' are more united than you may realize.

Sincerely,

Your Master
