Title:

Comments: Our area is already so infiltrated by people trying to ruin the wild we protect, trying to expand too much and changing the way of life here to the same as the big cities they flee. Allowing somewhere so a part of the history of the area is just joining in their destructive behavior and should not be acceptable. It's our job to protect our wild since the influx of people don't have the respect for it and never will. Stop this obnoxious expansion.
