Comments: My family has owned recreational property on the outlet of Holland Lake since the mid 1970's, not alot has changed in the area until now. I think the impact of this development would have a huge impact on the feel and use for the people using it now, including traffic, noise, not to mention the natural resources. The campground located next to the lodge would look like Main St Missoula with all of the additional guests from the lodge walking through. Can we not preserve something nice and natural for all to enjoy, do we have to develop everything in our state for others to enjoy, I don't think that is wise.
