Title:

Comments: I'm sorry for my late entry to these comments. My family and I spend alot of time enjoying Holland lake and it's quiet ,pristine beauty .The Quantness if this lake is beyond measure. The environmental impact this would have is immense.Please take into consideration ALL of the publics comments to save this gem. WE stand with all of those opposing this construction. Thank you to Michelle and Shelli Mavor for all your help and I would also like to reference the statements made by Katie Holliday very well presented and appreciate your hard work and efforts. This would be a travesty to the beauty of nature and all of its surroundings.This is truly all about greed. Thank you Carley Ferguson
