Comments: Hello all. On top of concerns regarding impacts to Holland lake and the surrounding area this expansion would bring, I have concerns with the POWDR's fast tracking of this project via a categorical exclusion. From what I understand about environmental permitting, a categorical exclusion would require that any given project won't have impacts outside of the immediate area, or won't have impacts to important natural and cultural (including historical) resources. This project will not only impact Holland lake and Holland lake lodge, but other area lakes as well with increased human activity. I believe that a more thorough environmental review is warranted, and a full environmental assessment or impact statement needs to be conducted.
