Comments: To Whom it may concern,

I am writing in objection to the proposed Holland Lake Lodge expansion. The proposal was very deceptive because it misled people to think that the number of people staying at the proposed lodge, on average, was not more than currently stay, on average. However, upon closer inspection the average number of people that would regularly stay would be tripled, almost even quadrupled if the lodge was filled to capacity. I find it very hard to believe that increasing the number of people in that small area would not have a significant impact on the surrounding wildlife and ecosystem.

Stop the expansion! Keep Holland Lake and the surrounding areas as pure as possible!

Sincerely, Kevin Johnson
