First name: Matthew

Last name: Ogle

Organization:

Title:

Comments: My name is Matt, I'm 35 and I've lived in Montana my whole life. One of the main reasons me and my family still live here is because of places like Holland Lake. So few other places are as quiet, beautiful and calm as this lake. I was fortunate enough to spend summers at a shared family cabin on Holland Creek, making this area even more special to me.

I've also had the fortune of staying at Holland Lake Lodge and meeting the owner Christian, who is a gem of a person. I know from conversations that he treasures this place and has worked hard to find a buyer who will take care of the land. I appreciate his efforts and him as a person, but I still must plead for the USFS to not let the lodge change as described.

What makes this place special for locals and travelers alike, is its pristine beauty. To modify the area in a way that changes that is a tragic loss for everyone. Increased parking, traffic, and abuse of the land will surely and sadly ruin this place for generations to come.

Please save Holland Lake Lodge for everyone who's had the pleasure to visit and experience the real Montana.

Matt Ogle
