Comments: I strongly object to this project. While I may be a newcomer to Holland Lake, it's clear what a special place it is to many.

After spending just a short amount of time there, I can clearly see that the modifications proposed in this project threaten the beauty and tranquility of Holland Lake.

The US Forest Service needs to step up to the plate, do an Environmental Impact Assessment, and prevent this proposed development. Or else it will fail to care for the land and serve people.
