Title:

Comments: As a native Montanan who has lived in the area, I object to this project. This project is not in the interest of the public because it would disrupt the rare and beautiful scenery of the Swan Valley. Swan Valley is haven for a multitude of species, many of them being declining/threatened species (like the Grizzly bear, Canada Lynx, Wolverine, Bull trout, common Lions, etc.). A project like this would most certainly put these species at risk and threaten their homes. It would negatively impact the valued peace and natural scenery of the Swan Valley and change it's essence forever.

At the very least, there needs to be an environmental assessment before the project is approved.
