Comments: I oppose this project. If you are a Montanan you know why. If you don't know why, don't call yourself a Montanan. Holland Lake is one of the 'Treasure' states most treasured havens. Keep Holland Lake in Montana. Let nature have a rest in the winter months. Animals, such as wolverines, do not need more activity and disturbance in their territory. Multiple users are not the only folks that impact an area. It is time the Forest Service recognize that nonmotorized users impact areas heavily when their numbers explode as they have in oh so many places.

I knew Christian's father when he purchased the lease at Holland back in the 90s. It seemed to me he was trying to prevent just this kind of thing from happening. Thank you for demonstrating wisdom y extending the comment period.
