Title:

Comments: I have lived in western MT my entire life and camped, recreated and hunted all over montana.

Building a large resort like paws up, the stock farm, big mountain, big sky or Yellowstone club is not what we need more of. we have enough exclusive resorts for Rich out of staters to visit that we don't need to build a large resort on a pristine lake like Holland lake just to fill someones pocket off the back of local Montanans and the public land that we know love and cherish. The ecological impact of this resort would forever alter the lake and lake shore in a way that will never be able to be repaired back to its current state. Please oppose this proposal in the strongest terms and stand up for and stand by the public land owners and users of montana and the United States.

Bowen Newell

BHA member

Conservationist

Rancher

Public land owner

Native Montanan
