Comments: Would like to see upper 30 acres preserved for open space.
Only allow parking for recreational activities at Crown Park. Definitely No housing!
Western acres preserved for open space and wild life corridor.
We cannot afford to lose more open space along Valley road for housing.
Wild life lost winter range when Willits was developed. Now elk hang out on Crown Park.
Need to save land for open space recreational needs
Hopefully Eagle county will buy the 30 acres, with open space $ funds, to keep for perpetuity.
The Mid Valley has lost way too much land to high density development.
