Comments: As US Citizen, taxpayer and Public Land Owner I strongly oppose the proposed lodge expansion and development at Holland Lake Lodge. Holland Lake is an extraordinary and unique location, as it sits directly adjacent to one of the largest wilderness areas in the lower 48. This unique and sensitive landscape needs to be protected and a buffer zone around this wilderness area is necessary to keep it wild and protected. The proposed expansion into a luxury lodge complex with the destruction of trees, habitat and unknown impact to soil and water is completely unacceptable. It is in direct conflict with the best interests of this wilderness area, the public that recreates in this area and the Forest Service's mission of "Caring for the land and serving people". No amount of profit is worth destroying this Montana gem. Please consider all that is a stake at Holland Lake.

Thank you
