Comments: I would greatly appreciate it if we didn't develop this land. People would only come here in the summer as it is mostly inaccessible in the winter and rather dangerous for people unfamiliar to driving in snow.

We do not need to destroy public land to make a few extra dollars for the greedy elites. If thus land gets destroyed just know there will be several people protesting this act. Montana is not for the rich to make money off of. We have wildlife and need to protect such species.

Thank you
