Title:

Comments: Expanding access is not in the public's interest. A full impact assessment needs to be completed as this project close to doubles the land area developers are seeking. I don't believe this will be a prudent use of my public land as a Montana resident. I take my children to holland lake in the summers and we enjoy the natural beauty, peace, and wildlife that are abundant in the area. Resort development is encroaching on our ever dwindling public lands and I refuse to sit back and watch our Montana legacy be sold to the highest bidder. I want my grandchildren to someday be able to enjoy what I've been blessed to grow up with.
