Comments: I am a Montana native, born and raised in Creston, MT. I visited Holland Lake as a child and was later married there in the year 2000. My husband of 22 years, and I hold the remote space of the lake and lodge sacred. It's a quiet, tranquil place that needs to remain so. We strongly oppose the Forest Service and the PWDR group from pursuing any further action of development and expansion of Holland Lake. Please consider the views of the people who were born and raised near the Swan and hold the unspoiled, undeveloped land in our beings and our ancestors legacy.
