Comments: I strongly oppose the proposed expansion of the Holland Lake Lodge. My family and I have been coming to Holland Lake for years. My husband and I celebrate every anniversary there. We love the pristine nature and being able to completely disconnect while there. This project threatens to change so much of this beautiful area to include disrupting bears, loons, fish, etc. The people of Montana have spoken loudly against this deal. We encourage the Forest Service to deny it and preserve what we have.
