First name: Liv

Last name: Ensign

Organization:

Title:

Comments: It is only for profit and of no benefit to the land and the people who live in Montana and currently enjoy recreating at Holland Lake. Not to mention the absolute and complete destruction of the fragile ecosystem that animals rely on for their survival. Tampering with such delicate systems obliterate natural flora and fauna. Disturbing their habitat, habits and safe migration corridors. It is clear that this project is solely motivated by profit. Please do not allow this proposed project to move forward.
