Comments: I oppose this expansion of the Holland Lake Lodge. This valley cannot sustain the size of the resort they are asking to build. It would hinder the local people and tourists from enjoying and accessing Holland Lake and the trail to Holland Falls. The environmental impact from the water and sewer needs would put a strain on the natural resources we have available. We don't have housing in the community for the amount of people needed to work there.

We don't need a major resort. We need good jobs here that won't wreck the landscape and ruin one of our pristine water ways.
