Comments: To whom it may concern,

I am writing to oppose the proposed development on Holland Lake. All around the Flathead Valley and beyond, more and more wild places are getting overrun with tourism and development. I get it- people move, cities grow, and expansion happens. But we need to draw the line somewhere. National Forests are public lands, designated to preserve and protect the natural environment for the enjoyment of people and the preservation of animals. Please do not allow another wealthy developer to build on the pristine shores of another wild space. If people want a resort on a lake, they can go literally anywhere on Flathead Lake or Whitefish Lake Lodge... Leave Holland Lake alone!!!

Preserve the wild places! Or soon there won't be any left.
