Comments: I have looked into this proposal and find it surprising that it can even have serious consideration. I need a place to recreate that is not a tourist destination, and expanding the use of this place for paying customers will most definitely edge me and my friends, family, and community of montanans out of the area. Countless people, over even more years, have harvested berries, and game along these banks, and all taxpayers who were just fine with keeping it how it was. I am very against the POWDR proposal .
