Title:

Comments: You've already allowed the destruction of thousands of acres of PROTECTED WILDLIFE HABITAT this past year, logging right up to ACTIVE BALD EAGLE NESTS. Just stop. Please stop destroying the last wild places we have left on earth for profit. You guys clearly don't care about the well being of the forest, and are just glorified permit signers for loggers. Nothing more, and everything less. Please just stop. Don't do this.
