Title:

Comments: I support grooming Junction Creek Road and the Junction Creek campground as proposed by Durango Trails in 2016 for fat biking and cross-country skiing. Please do not allow cars to drive past the gate and park on the road, especially if resources are going to be used to groom the road.

I support creation of, maintenance of, and re-routing of the natural surface trails in the Log Chutes and perimeter Forest service lands. I believe that increased trail density of varying purpose will discourage user created illegal trails, enhance user experience, and decrease user conflicts.

Additional trail connections to the Log chutes trail system from CR 203 and Durango Estates would be beneficial for trail users, reduce vehicle trips and parking requirements, and enhance user experience. Additional access locations would disperse users, thereby decreasing density at the existing trailhead, and be more sustainable.
