Comments: As a Trail Angel in Republic, WA I feel that it would be very beneficial to try and alleviate some of the road walks in our area. This trail is such a valuable resource for recreation, solitude, healing, exercise, and so much more. It's important to protect it and continue to improve it. It benefits our community and all of the wonderful people who choose to hike it. I love seeing the improvements and maintenance that happen each year. Please consider improving the road walks and bushwhacks in the Republic area.
