Comments: The expansion of the lower parking lot is long overdue and much needed, I support it. I do not support the chip sealing/paving of Junction Creek Road however. The road is in good enough shape as is for vehicles and a great resource for trail runners wanting easy dirt miles for long runs while bypassing the Log Chutes trails and its mtn biking traffic. Finally, I support the ADA want on a short section of the Colorado Trail as long as it doesn't interfere with the character of the terminus for Colorado's greatest trail.
